WARRANT FOR TOWN MEETING.

Town of Cumberland, Maine.

To Edward L. Farwell, a Constable in the Town of Cumberland, in the County of Cumberland:

In the name of the State of Maine, you are hereby required to notify and warn inhabitants of said Town of Cumberland, qualified by law to vote in town affairs, to meet at Red Men's Hall, Cumberland Center, in said Town, on Tuesday, the seventh day of March, A. D. 1933, at nine o'clock in the forenoon, to act upon the following articles:

Article 1. To choose a Moderator to preside at said meeting.

Article 2. To choose a Town Clerk for the ensuing year.

Article 3. To hear and act upon the report of Selectmen, Assessors, and Overseers of the Poor.

Article 4. To hear and act upon the report of Town Treasurer and Treasurer of Cumberland School Fund.

Article 5. To hear and act upon the report of the Superintending School Committee.

Article 6. To hear and act upon the report of the Treasurer and Trustees of Greely Institute.

Article 7. To hear and act upon the report of the Cemetery Commission.

Article 8. To choose all other necessary town officers.

\$9,000
Article 9. To raise money for the support of schools for the ensuing year.

\$400.
Article 10. To raise money for schoolhouse repairs.

\$700.
Article 11. To raise money for textbooks and supplies.

*uparrow
selling
4,000*
Article 12. To see what action the town will take in regard to the money coming from income from Drown Farm.

Article 13. To see what sum of money the town will vote to raise for the support of Greely Institute.

\$50
Article 14. To see if the town will vote to raise and appropriate a certain sum of money for Superintendent of Schools' contingent fund.

\$200
Article 15. To raise money for the support of poor.

Article 16. To raise money for highways, town ways and bridges, and fix the price of labor.

Article 17. To raise money for State Patrol and State Aid Maintenance Roads.

Article 18. To see what sum of money the town will vote to raise or appropriate for Third Class Road Maintenance.

Article 19. To raise money for payment of snow bills.

Article 20. To raise money for payment of town notes and interest.

\$1150
Article 21. To raise money for support of hydrants.

\$1000
Article 22. To raise money for support of street lights.

\$100
Article 23. To raise money for support of Cemetery Commission.

\$4000
Article 24. To raise money for contingent expenses.

Article 25. To receive bills against the town.

yes Article 26. To see if the town will vote "yes" or "no" on the question of appropriating money necessary to entitle the town to State Aid, as provided in Section 20, of Chapter 28, of the Revised Statutes of 1930.

1864 Article 27. To see if the town will raise and appropriate the sum of eight hundred sixty-four dollars (\$864.00) for the improvement of the section of State Aid Road as outlined in the report of State Highway Commission, in addition to the amount regularly raised for the care of ways and bridges, the above amount being the maximum which the town is allowed to raise under Section 19, Chapter 28, of the Revised Statutes of 1930.

1864 Article 28. To see if the town will vote to raise and appropriate the sum of two hundred dollars (\$200.00) for the Cumberland Fire Company. *into road money*

1864 Article 29. To see if the town will vote to raise and appropriate a sum of money to be used in the observance of Memorial Day services.

1864 Article 30. To see if the town will raise or appropriate a sum of money and authorize the Selectmen and Board of Health to employ a physician on Chebeague Island to attend to all matters pertaining to the enforcement of the laws relating to health and also attend all persons requiring attendance who are charges of the town.

1864 Article 31. To see if the town will vote to raise or appropriate a sufficient amount of money to provide the Island voters transportation to the March town meeting.

1864 Article 32. To see if the town will vote to raise money to purchase a new school bus.

1864 Article 33. To see what action the town wishes to take in

regard to the control of White Pine Blister Rust and raise and appropriate money for the same.

13 Article 34. To see if the town will accept and build the road on the western end of Chebeague Island, as laid out August 10, 1932, by the Selectmen of the Town of Cumberland, and raise money for same, the amount being around \$500.00.

Article 35. To see what sum of money the town will vote to raise and appropriate, to be expended in continuing the construction of a piece of road on Chebeague Island.

20-2-10 Article 36. To see what amount of money the town will vote to raise and appropriate for new snow fence.

Article 37. To see if the town will vote to instruct the Selectmen to continue the arrangement made with the Town of Yarmouth to exchange road repairing and snow removal on Greely Road and Baptist Meeting House Road.

Article 38. To see if the town will vote to raise or appropriate and pay to the trustees of Prince Memorial Library the sum of three hundred dollars (\$300.00), to be used in benefiting the service of the library.

Article 39. To see if the town will vote to instruct the Selectmen to borrow money and renew notes, if necessary, for payment of bills until such time as sufficient funds have been paid to the Treasurer by the Collector of Taxes.

Article 40. To see if the town will vote to install a light on Western Landing on Chebeague Island, and appropriate money for same.

13 Article 41. To see if the town will vote to raise or appropriate a sum of money for the repairs of the town wharf on Chebeague Island.

13-10 Article 42. To see what sum of money the town will vote to raise and appropriate for cutting bushes on the highways.

#350 Article 43. To see if the town will vote to raise and appropriate the sum of three hundred fifty dollars (\$350.00) for another application of tar on the Third Class Road at West Cumberland.

#100 Article 44. To see if the town will vote to raise money to clean up brown-tail moths' nests around the town.

#75 Article 45. To see what sum of money the town will vote to raise for the services of the nurses of the Cumberland County Public Health Association.

#200 Article 46. To see what sum of money the town will vote to raise and appropriate for the support of the Dental Clinic.

Article 47. To see if the town will vote to amend Section 3, of Article 1, of the By-Laws of the Town of Cumberland to read: "The number of Selectmen shall be three, to be elected to serve for a period of one year."

Article 48. To see what action the town will take in regard to paying the Collector's bond, and raise and appropriate money for the same.

Article 49. To hear and act upon the report of the Town Planning Board.

Article 50. To see what action the town will take in regard to the enforcement of the Clam Laws, electing Clam Wardens, and fix pay for same.

Article 51. To see what action the town will take regarding the collection of old tax deeds.

SUMNER S. LOWE, } *Selectmen*

REPORT OF HIGHWAY COMMISSIONERS.

FRED L. ROBINSON.

UNIMPROVED HIGHWAYS.

Work was commenced on the highways the 4th of March, hauling gravel, and was continued intermittently until the 17th, when the ground froze again.

On the 28th, the heaviest snowfall of the winter occurred, but by the first of April the roads were in a terrible condition, caused by the frost coming out and the snow melting rapidly under a warm sun.

On that date I again commenced hauling gravel onto the places where cars were bothered, and continued until the 13th

of May. By that time they had commenced to harden and travel was safer.

During this time I hauled 498 yards of gravel onto these roads.

Total expenses to date, \$805.24.

Throughout the summer months I tried to keep the roads as smooth as possible by dragging and applying gravel.

On December 5th I had a balance of \$138.31, and practically all of this amount was expended between this date and January 5th.

On January 5th I employed 4 teams and 2 trucks, smoothing the roads, something I never had to do before at that time in the year.

The total amount of gravel hauled onto these roads was 803 yards.

THIRD CLASS MAINTENANCE.

At our last Annual Town Meeting, it was voted to raise the sum of \$500.00 for tar to be applied on the Third Class Road at West Cumberland.

The tar was applied on the 23rd and 24th of May, and there has been very little maintenance cost this past year. This coming spring it will need some cold patch treatment before another coat of tar is applied, in order to keep the surface smooth and prevent holes from forming. Personally, I think the taxpayers receive more benefit as a whole from the money expended for tar treatment than for any other method of maintenance.

The work on the gravel portion consisted of surfacing with clay and gravel, dragging, and cleaning out ditches.

On September 26th work was started on the Third Class construction situated on the Greely Road and beginning at North Yarmouth line. This road was extremely narrow, with poor drainage. Bushes and trees had grown so close to the road that two cars had difficulty in passing.

The bushes were cut and burned, the road straightened and grade raised in order to provide suitable drainage. We also removed the abutments where the railroad used to go over-

head, and we used the stone to lengthen and raise the culvert at the foot of the hill.

Following is a distribution of the money spent and is for labor only:

Clearing and grubbing,	\$309 20
Earth excavation,	492 64
Gravel base,	592 84
Culverts,	86 40
Surfacing,	174 00
Guard rail,	45 72

This amounts to \$1,700.80, which was paid for labor. The remainder, \$241.05, was used for gravel, guard rail, posts, gas and other incidentals used in work of this kind.

STATE AID CONSTRUCTION.

On July 5th work was commenced on the State Aid construction under the Five Times Act, the work to be done by hand and employing only local labor.

At one time the crew was composed of 43 shovellers, besides the trucks and drivers.

This road was 24 feet wide with a 21-foot base, using 14 to 20 inches of gravel. We constructed 6,800 feet, thereby completing this road as far as the base is concerned, and surfaced 3,400 feet.

We were allowed to do this by vote of the State Highway Commission, with the understanding that the town raise money enough to finish it this coming Town Meeting.

There were nine culverts installed on this piece of construction, ranging from 16 inches to 3 feet in diameter. I will mention only two in particular: one at Sunnyside Greenhouses, 3 feet by 60 feet long, and a twin installation, that is, two pipes side by side, each 3 feet by 46 feet in length, which were installed near the residence of Mr. Vaughan.

Following is a list taken from a copy of the Completion Certificate, which has to be sent to the State Highway Commission, and includes labor and materials:

Clearing and grubbing,	\$ 865 51
Earth excavation,	735 11
Earth fill,	594 04
Rock excavation,	17 64
Gravel base,	4,266 62
Culverts,	1,559 13
Surfacing,	852 27
Guard rail (posts),	70 26
Maintenance,	15 62
	<hr/>
	\$8,976 20

There were used 7,227 yards of gravel for base and surface, and 1,800 yards of clay and loam for shoulders and filling.

The work was complete on September 19th.

GERALD H. PACKARD.

Work was started on March 2nd on the highways. The warm weather the first of this month started a lot of water running and several places were washed badly. This was taken care of by using gravel, and the roads were kept in very good condition at all times.

The town highways opened up in the spring with a lot of mudholes. These were kept filled with gravel. This condition lasted for several weeks, which made this expense quite large.

The latter part of the summer I hauled about seventy-five yards of gravel to places on the Greely Road which are sure to be bad in the spring, and placed it in piles beside the road.

The hills in Wildwood Park did not wash as badly as in years past and came through the spring in very good condition.

We used around five hundred and seventy-five yards of gravel on the town highways during the year.

STATE AID ROADS.

These roads were resurfaced in the places that needed it most. The extremely dry summer made the washboard condition worse than usual.

The portion of the Middle Road which was tarred at the time it was used as a detour had to be patched at quite a cost, and the expense will be greater this year, due to the surface having lost its life, and it is beginning to crumble.

THIRD CLASS ROADS.

The third class road from the Station Road to the Fal-mouth line was resurfaced nearly all the way and is in very good condition.

LONG WOODS ROAD, SPECIAL.

There was \$1,458.72 spent on this work. I completed 1,650 feet of road, which was 21 feet in width.

MARTIN B. HAMILTON.

Work was started on the island this year on March 8th. This early start was necessary on account of the warm weather the first of the month, causing the running water to wash the roads badly in several places, making it necessary to start graveling these bad places. By so doing, the roads were kept in very good condition all the time.

By having this trouble in the early spring and a reduction of three hundred dollars in our general road money, we could not carry our general improvements as far as we anticipated.

Due to having insufficient money to patrol the roads as we wished during the summer, the time of our heaviest travel, they became washboardy in places.

ISLAND ROAD, SPECIAL.

The appropriation of \$1,000.00 for this work was expended this year in continuing toward the post office and central landing the new construction started in 1931.

A distance of eight hundred feet was completed, including some ledge work in one of the ditches.

There now remains uncompleted a distance of around seven hundred feet to the post office. Upon starting this construction, it was planned to complete this section the third year.

TOWN HIGHWAYS.

Appropriation by town,	\$4,000 00	
Island road, special,	1,000 00	
Bridges and culverts,	800 00

REPORT OF FIRE CHIEF.

During the past year the Cumberland Fire Department has responded to 42 alarms within the town limits, and has also been called to Falmouth twice, Gray twice, and to North Yarmouth five times. These out-of-town fires have been the worst to handle due to the distance we had to cover.

We have been able to prevent any bad fires within the town so far.

Meetings of the Fire Company have been held once each month. Equipment which has been furnished by the town has been kept in repair and ready for use. In short, we have tried to furnish as efficient fire protection as possible.

Respectfully submitted,

EDWARD E. BRAGG,
Chief.

REPORT OF THE SUPERINTENDENT OF SCHOOLS.

February 1, 1933.

*To the School Committee and the Citizens of the Town of
Cumberland:*

I herewith submit the annual report of the public schools in Cumberland for the year ending February, 1933.

TEACHERS.

The teachers throughout the length and breadth of this land are sympathetic to the tax situation. They have responded heroically to the tax burden on real estate by accepting cheerfully reductions in their salaries. They, as usual, are setting worthy examples. Teachers are imbued with the spirit of service and they willingly render that service wherever needed.

RELATIVE VALUES.

The world is confused, but it must steady itself to preserve its quality. Composure is essential to any balanced consideration of relative values. It will be unfortunate if our most worthy endeavors suffer while many rather useless undertakings continue to sap the life from our credit system. Let us think before we act. Let us evaluate before we decide.

Public Education is one of the most cherished American institutions. The very foundations of our representative form of government rest upon the theory of an enlightened citizenry. Horace Mann, a pioneer in American Public Education, stated, "Public Education under our form of government is not optional, it is obligatory."

EDUCATION AND TAXES.

It is the obligation of the teaching profession in America in conjunction with the various school committees to plan and

carry out a progressive and sound educational program for the youth of our land. This they have done during the past ten years in a broader and better way than ever in the history of our country. As a consequence, it has become the ambition of practically every parent with children of school age that their children have the desire and opportunity to complete the course of Public School Education through the high school.

Educators have been reluctant to suggest ways and means by which funds should be raised and appropriated for educational purposes. That obligation rests primarily with the lay public. However, our credit system is being tapped at so many points that it may be imperative to unite forces to insure that the children continue to get the use of a fair share of our national income for educational purposes.

All the costs of Public Education—elementary and secondary—in the United States total only 2.97% of the national income. It might be well to call to the attention of the public that all of the funds used for Public Education get back into the channels of business at once. Large sums are not accumulated from the meager salaries paid to teachers. It is interesting to note that for every dollar of credit allotted for educational use, several dollars are spent for articles classed as luxuries. The bill for tobacco alone, is very little less than the bill for schools.

It would seem poor practice that over 80% of all school support should come from property taxes levied in local communities. Part of this support from a sales tax would relieve real estate and thus protect the home.

SCHOOL BUILDINGS ARE NOT LUXURIOUS.

School Union No. 13 is very favorably located. It is composed of the towns of North Yarmouth, Cumberland, Falmouth, and Cape Elizabeth. In these towns 15 of the 25 school buildings have no cellars; these 15 are exposed to the elements on all sides and are heated by wood stoves; the other 10 are assets in the communities where they are located.

The buildings in this town have been kept in repair during the fiscal year ending February, 1933, at a cost per pupil of \$3.61. How does this compare with the repair bill on your home per person housed therein?

MISCELLANEOUS.

In the Town of Cumberland the elementary children are being housed, educated, and in many cases transported, at a yearly cost per pupil of \$74.88; a daily cost of \$0.416; an hourly cost of \$0.059.

How do these costs compare with the costs of other services for which you have to pay?

The transportation cost per pupil per day is \$0.073.

The number of elementary pupils per teacher is 24.66.

School enrollments for the past four years:

<i>Year</i>	<i>Elementary</i>	<i>Greely Institute</i>
1929	192	54
1930	189	48
1931	195	63
1932	222	54

The interest and coöperation on the part of the parents and citizens of the Town of Cumberland have been most helpful to the entire teaching force and I desire to express our sincere appreciation.

Respectfully submitted,

JOHN T. GYGER,

Superintendent of Schools.

(10% reduction in Greely Institute teachers' salaries, effective Jan. 1, 1933.)

REPORT OF THE PRINCIPAL OF GREELY INSTITUTE.

February, 1933.

*To the Superintendent of Schools and Trustees of Greely
Institute:*

I herewith submit the annual report for Greely Institute.

At the beginning of the year there were registered in the institute proper 54 pupils and in the junior high 42 pupils. The increased enrollment in the junior division (about 40% over last year) made necessary the purchase of additional seating equipment, which has considerably congested the space formerly used at assemblies and makes it impractical to hold the social affairs in the institute building. A piano was purchased through the donations of each class now in the building and it is proposed to attempt future social functions in the gymnasium.

The present coat rooms are overcrowded and unhandy for the groups using them. At very little expense the old laboratory could be fitted up for this purpose for the junior high. I believe that the benefit derived would more than justify the expense.

This year we added to the curriculum a course in Sociology to alternate from year to year with the Economics course offered last year. Both of these courses have proved quite popular and were added to allow those pupils who are not going to college an alternative with Chemistry and Physics and a chance to take up the study of topics with which every citizen must familiarize himself if he is to become an intelligent voter.

Our courses in high school are so designed that the average pupil gets three study periods during school hours. In order to accomplish anything like satisfactory results it is expected that a pupil will study two hours each evening at home. It is quite necessary that the teachers have the coöperation of the parents in this matter.

This year we worked into our program an activity period—its purpose being to organize some of the time previously spent waiting for buses and wasted in unorganized recesses.

We are attempting in this period to supervise such sports in their seasons as tennis, volley ball, baseball and track, and to get in such activities as drama rehearsals, future farmer meetings, debating and stamp clubs. In the past these activities had to be arranged for in the evening. This period as conducted this year has proved a rather difficult one to administer due to the crowded schedule of the teachers and some changes in it will be advisable another year.

Last May Greely Institute took part in the State Scholarship Contest conducted by the Educational Department of the University of Maine. We were much pleased with the outcome. In schools of our class we stood first in Physics, second in Plane Geometry, and had an individual winner in Algebra. Such contests, I feel, are very beneficial, since they give us an opportunity to compare ourselves with others as to scholastic standing.

Two members of last year's graduating class are attending college this year. Four members of this year's senior class plan to continue their education next year either in college or in normal school.

The following accounts of the Greely Institute Athletic Association have been audited by Herman P. Sweetser and have been found correct.

WARRANT FOR TOWN MEETING.

Town of Cumberland, Maine.

To Edward L. Farwell, a Constable in the Town of Cumberland, in the County of Cumberland:

In the name of the State of Maine, you are hereby required to notify and warn inhabitants of said Town of Cumberland, qualified by law to vote in town affairs, to meet at Red Men's Hall, Cumberland Center, in said Town, on Tuesday, the sixth day of March, A. D. 1934, at nine o'clock in the forenoon, to act upon the following articles:

Article 1. To choose a Moderator to preside at said meeting.

Article 2. To choose a Town Clerk for the ensuing year.

Article 3. To hear and act upon the report of Selectmen, Assessors, and Overseers of the Poor.

Article 4. To hear and act upon the report of Town Treasurer and Treasurer of Cumberland School Fund.

Article 5. To hear and act upon the report of the Superintending School Committee.

Article 6. To hear and act upon the report of the Treasurer and Trustees of Greely Institute.

Article 7. To hear and act upon the report of the Cemetery Commission.

Article 8. To hear and act upon the report of the Town Planning Board.

Article 9. To choose all other necessary town officers and fix their rates of pay.

Article 10. To raise money for the support of schools for the ensuing year.

Article 11. To see what sum of money the town will vote to raise for the support of Greely Institute.

Article 12. To raise money for schoolhouse repairs.

Article 13. To raise money for textbooks and supplies.

Article 14. To see what action the Town will take in regard to the money coming from income from Drown Farm.

Article 15. To see if the Town will raise and appropriate money to transport the members of the junior and senior classes of Chebeague Island to Greely Institute, or take any other action relative thereto.

Article 16. To see if the Town will vote to raise and appropriate a certain sum of money for Superintendent of Schools' contingent fund.

Article 17. To raise money for the support of poor.

Article 18. To raise money for highways, town ways and bridges, and fix the price of labor, teams and trucks.

Article 19. To raise money for State Patrol and State Aid Maintenance Roads.

Article 20. To see what sum of money the town will vote to raise or appropriate for Third Class Road Maintenance, including applying tar.

Article 21. To raise money for payment of snow bills.

Article 22. To see what sum of money the town will vote to raise and appropriate for cutting bushes on the highways.

Article 23. To see what action the town will take regarding the raising of money to pay the old notes held by the closed First National Bank.

Article 24. To see what action the town will take regarding raising the sum of one hundred forty dollars (\$140.00) for payment of double assessment on two shares of the Casco Mercantile Trust Company, belonging to Cumberland School Fund.

Article 25. To raise money for payment of town notes and interest.

Article 26. To raise money for support of hydrants.

Article 27. To see what action the town will take regarding a petition to re-install six street lights in Wildwood Park.

Article 28. To raise money for support of street lights.

Article 29. To see what action the town will take regarding discontinuance of the Cemetery Commission.

Article 30. To see what action the town will take regarding the acceptance of the incorporated Cumberland Cemetery Association.

Article 31. To see what action the town will take regarding the cash balance belonging to the Cemetery Commission.

Article 32. To raise money for the support of the Cemetery Commission.

Article 33. To raise money for the support of Cumberland Cemetery Association.

Article 34. To see what action the town will take regarding money received from sale of lots in Chebeague Island Cemetery. *Cleaning land.*

Article 35. To raise money for contingent expenses.

Article 36. To receive bills against the town.

Article 37. To see if the town will vote "yes" or "no" on the question of appropriating money necessary to entitle the

town to State Aid, as provided in Section 20, of Chapter 28, of the Revised Statutes of 1930.

Article 38. To see if the town will raise and appropriate the sum of eight hundred sixty-four dollars (\$864.00) for the improvement of the section of State Aid Road as outlined in the report of State Highway Commission, in addition to the amount regularly raised for the care of ways and bridges, the above amount being the maximum which the town is allowed to raise under Section 19, Chapter 28, of the Revised Statutes of 1930, or under the provisions of Section 3, Chapter 175, Public Laws of 1933.

Article 39. To see if the town will vote to raise and appropriate the sum of two hundred dollars (\$200.00) for the Cumberland Fire Company.

Article 40. To see if the town will vote to raise and appropriate a sum of money to be used in the observance of Memorial Day services, and appoint a committee to have charge of same.

Article 41. To see if the town will raise or appropriate a sum of money and authorize the Selectmen and Board of Health to employ a physician on Chebeague Island to attend to all matters pertaining to the enforcement of the laws relating to health and also attend all persons requiring attendance who are charges of the town.

Article 42. To see if the town will raise seven hundred fifty dollars (\$750.00) to remove ledge on hill on the Tuttle Road at the junction of the Middle Road.

Article 43. To see if the town will vote to apply the cash in the Sinking Fund account on the town's note to Greely Institute, this being the purpose for raising this fund.

Article 44. To see what sum of money the town will vote to raise and appropriate, to be expended in continuing the construction of a piece of road on Chebeague Island.

Article 45. To see if the town will vote to raise or appropriate a sufficient amount of money to provide the Island voters transportation to the March town meeting.

Article 46. To see what amount of money the town will vote to raise and appropriate for new snow fence.

Article 47. To see if the town will vote to instruct the Selectmen to continue the arrangement made with the Town of Yarmouth to exchange road repairing and snow removal on Greely Road and Baptist Meeting House Road.

Article 48. To see if the town will vote to raise or appropriate and pay to the trustees of Prince Memorial Library the sum of three hundred dollars (\$300.00), to be used in benefiting the service of the library.

Article 49. To see if the town will vote to instruct the Selectmen to borrow money and renew notes, if necessary, for payment of bills until such time as sufficient funds have been paid to the Treasurer by the Collector of Taxes.

Article 50. To see if the town will vote to raise or appropriate a sum of money for the repairs of the town wharf on Chebeague Island.

Article 51. To see what sum of money the town will vote to raise for the services of the nurses of the Cumberland County Public Health Association.

Article 52. To see what sum of money the town will vote to raise and appropriate for the support of the Dental Clinic.

Article 53. To see if the town will raise one hundred dollars (\$100.00) to improve the Town Landing Road, Mainland.

Paid Harry S. Jordan, Treasurer,	
county tax,	\$ 2,925 31
Treasurer of State, state tax,	13,015 22
	<hr/> \$15,940 53

REPORT OF HIGHWAY COMMISSIONERS.

FRED L. ROBINSON.

UNIMPROVED HIGHWAYS.

In this report I am trying to place before the public an idea of what it costs during the spring to keep the roads passable for automobiles.

Before taking up the matter of costs it would be well to know where the money is to be spent, by that I mean the territory covered.

How many of us realize that this end of the town has only one road of State Aid Construction? That is the Third Class Road from the cement to the Blanchard Road.

All other roads are dirt roads and compare with the Greely Road, Long Woods Road, or the Harris Road, which are the only roads in the lower end of the town, but what are State Aid or Third Class Roads?

Following are the costs and the number of men employed in trying to keep these roads passable for automobiles until the 13th of May.

From the 23rd until the 31st of March, inclusive, I employed 12 men, 2 trucks, and 5 pairs of horses with drivers, a total of 19 men at a cost of \$199.78.

From April 3rd to April 12th, inclusive, I employed 6 men, 2 trucks, and 5 teams with drivers, a total of 13 men at a cost of \$132.23.

From April 17th to April 29th, inclusive, I used 7 men and 2 trucks with drivers, a total of 9 men at a cost of \$123.77.

From May 1st to 13th I employed 11 men and 2 trucks with drivers, a total of 13 men at a cost of \$186.02.

The above expenditures total \$641.80, and what I wish to have the public realize is that this money spent upon these roads up to this time was used wholly to keep them passable without any permanent improvements. This left only \$783.20 to care for 19 miles of road the remaining seven months.

How many realize that this sum would provide employment for only 2 trucks and 4 shovelers—30 days, allowing that the gravel hauled was given the town free of charge?

Up to May 13th I hauled 460 yards of gravel on these roads.

This past summer the road from the Gurney Schoolhouse to the Whitney Road was widened and ditched and is a very good summer road, but is nearly impassable during the spring and fall.

STATE AID CONSTRUCTION.

State Aid Construction this past year consisted of finishing the surfacing and erecting the guard rail cable on the Blanchard Road.

This road is now completed and is under State Patrol.

The money that was left unexpended from this job was used to start a new State Aid Road extending from Falmouth line to Gray Road Inn on the Old Gray Road, so-called, and the Skillings Road.

We commenced at the Falmouth line and constructed 275 feet and installed one 24-inch culvert.

THIRD CLASS MAINTENANCE.

Third Class Maintenance this past year consisted principally of applying tar on the same piece that was tarred last year, cleaning out ditches, and surfacing on the section that is not tarred.

BRIDGES.

This past year I placed two new stringers and new planking on the bridge near Wilson's Mill and there were also some minor repairs on the Prince and Valley Bridges, so-called.

The Prince and Valley bridges will probably have to have new planks this coming year.

BUSHES.

This past year I commenced at the Fair Grounds and mowed the bushes to the cement road by way of the Skillings Road. I also cut and mowed them on the Mill Road. We then commenced at the Gurney Schoolhouse and worked towards North Yarmouth.

The cement and Third Class Roads were also mowed.

These bushes were burned or hauled away with the exception of a few that were so large and green they were hard to dispose of. These should be burned this spring.

GERALD H. PACKARD.

We started work on the highways on March 23rd.

The roads are in fairly good condition, but there should be a considerable amount of clay and gravel mixed, put on the hills and on the main street.

STATE AID ROADS.

I spent a good portion of the State Aid allotment on clay, and mixed it with the loose gravel on and near the shoulders of the road.

The part of the Middle Road which was tarred was in very bad condition and I used the tractor and tore up the tar from the Greely Road to the Yarmouth line.

The remaining road required a large amount of patching, which is quite expensive, and I would recommend that it be either torn up or a new application of tar applied.

THIRD CLASS.

The Third Class Road from the Station Road to the Falmouth line has been in very good condition. We used clay on the shoulders and mixed it with the gravel that was there.

TOWN HIGHWAYS.

Appropriation by town,	\$3,200 00	
Special island roads, including new construction,	1,000 00	
Bridges and culverts,	400 00	
Cutting bushes,	500 00

Respectfully submitted,

ANN R. DUNN,
Town Clerk.

REPORT OF THE SUPERINTENDENT OF SCHOOLS.

February 1, 1934.

To the School Committee and the Citizens of the Town of Cumberland:

I herewith submit the annual report of the public schools in Cumberland for the year ending February, 1934.

On approaching the close of this fiscal year we are mindful that Cumberland has undertaken the solution of its problems in an understanding and constructive manner. It is a matter of history that any other course leads only to confusion and ultimate disaster. Those connected with Cumberland's educational work are, therefore, very appreciative of the town's forward-looking policy and have endeavored to show that appreciation through earnest effort in maintaining the highest ideals in their work at all times.

The educational policy of this town is part of the educational policy of the American People as a nation. Our local, state, and national patriotism is nothing more than an indication of our love for our children; to the extent that we believe that our institutions and our ideals are worth preserving for our children—just to that degree are we patriotic.

Education must be universal if we are to attain the full meaning of the great American Ideal—"Equality of Opportunity." Through sacrifices we make provision for the health of our children. Child labor through the sixteenth year has been eliminated; the American People could boldly take that step because a place had been prepared to receive these children. They believed that these growing children should be transferred from the crushing and depressing wheels of industry to the guiding and uplifting forces of the public schools which have been developing during the past decades.

The open doors of the sensible, practical public school system beckoned to the American People and focused their attention on "Equality of Opportunity." As a result, the American People demanded that every child in this nation should be permitted to develop physically, mentally, morally, and

spiritually under the guidance of helpful influences. The children have been freed to receive this instruction. We cannot take these children from industry—present them for guidance and then close the doors with them on the threshold. The Federal Relief Program even recognizes the importance of adult education and guidance so we cannot consider curtailing the advantages for those who are immature in all respects. Business is improving and any ground lost to education during the past few years should be regained at once in order that the elimination of child labor may be an asset to these young people affected instead of a liability. Cumberland has an obligation to help maintain confidence in our institutions. The public is interested especially in two phases of public education. First: *The quality of its teaching force.*

The quality of the teaching force determines the quality of the school system. Capable, well-trained teachers conduct happy, interesting and stimulating schools. Children under such supervision develop and grow into citizens capable of carrying forward our institutions. No community can afford to undermine the quality of the teaching force in its schools. To permit material accumulations to decay is waste, but the effect of deterioration in the supervision of the unfolding of a child's life is far too serious to contemplate. Quality in the guidance of youth renders to us all a greater service than quality in any other phase or walk of life. Serious thought should be given to the methods of maintaining this quality.

If salary is a means of attracting quality among employees in the business world perhaps it would be well to estimate the value to education of such an attraction. Our mode of living still requires some foresight. Society is still critical of the man who cannot pay his bills. Young people in planning a career, therefore, find it necessary to consider the importance of entering fields that offer some assurance that they can meet their future financial obligations. When financial obligations can be met without serious worry—the culture offered through an educational career can be obtained more easily than through dedicating one's life to the service of education.

It is my belief that the quality needed in the training of youth should not be permitted to escape because of these money considerations.

Second: The public is interested in the opportunities offered for all-round development of the individual. We need trained leaders but we also need an enlightened public capable of selecting those leaders. We, as a nation, believe that our leaders should be of our choice. Educators occasionally present impractical plans and policies just as our business leaders do. There are necessarily experimenters in the educational field as well as in the field of business. However, those interested in the administration of public education are continually evaluating the courses offered. They realize that a very large majority of those completing the high school course must conform at once to the requirements of a complicated world. The training of these young people, therefore, must stimulate in them an appreciation and a will to understand those conditions. There must be a harmonizing of the whole school life with the everyday life of the adult population.

There is a tremendous force at work in our schools that is modern to some extent, yet very vital in this problem of harmonizing. I refer to the courses in homemaking, agriculture, industrial training, commercial work, music, athletics, and similar activities. All of these activities help the whole child to blossom out in harmony with the world in which he lives. Educational authorities have recognized and incorporated these additional foundation stones because the technique of the business world is not confined to proficiency in the three R's. This program does not retard the progress of those planning to continue work in higher education. It is possible to maintain higher standards in the college courses because those interested in other fields have courses provided for them.

Many of the citizens of Cumberland undoubtedly will be interested in a pamphlet published by the National Education Association entitled, "Desirable Social-Economic Goals for America." These pamphlets sell for ten cents each and are available at the office of the Superintendent of Schools.

MISCELLANEOUS.

Our books are closed twice a year. We balance and close our accounts in February for the Annual Town Meeting and also in June for the State Reports. The enrollment varies from year to year in the Town of Cumberland and it is much more accurate to figure our school costs for the school year beginning July 1st and ending June 30th.

In the Town of Cumberland the children are being housed, educated, and in many cases transported at the following per pupil costs:

	<i>Yearly Cost</i>	<i>Daily Cost</i>	<i>Hourly Cost</i>
Elementary	\$65.40	\$0.365	\$0.052

How do these costs compare with the costs of other services for which you have to pay?

The transportation cost per pupil transported per day is \$0.088.

The transportation cost per pupil transported per year is \$15.75.

The school buildings in this town have been kept in repair at a cost per pupil of \$4.09. How does this compare with the repair bill on your home per person housed therein?

The number of pupils per elementary teacher is 27.

School enrollments for the past five years:

<i>Year</i>	<i>Elementary</i>	<i>Secondary</i>	<i>Total</i>
1929	192	54	246
1930	189	48	237
1931	195	63	258
1932	222	54	276
1933	241	54	295

On behalf of the teachers and school officials, I desire to thank the citizens for their interest, coöperation, and assistance in carrying out the town's educational program.

Respectfully submitted,

JOHN T. GYGER,

Superintendent of Schools.

(10% reduction in Greely Institute teachers' salaries effective Jan. 1, 1933.)

*The teachers' salaries include \$2.00 per week for janitor work.

REPORT OF THE PRINCIPAL OF GREELY INSTITUTE.

*To the Superintendent of Schools and Trustees of Greely
Institute:*

I herewith submit the annual report for Greely Institute.

There are enrolled in the four years of the Institute fifty-four pupils and forty-eight in the Junior High. We graduated twelve pupils last June.

One new subject was added to the curriculum this year. This is Junior Business Training and will alternate in the schedule with Economic Geography, which will be offered for the first time next year. The introduction of these subjects gives a wider choice to those pupils who do not wish to take Mathematics and who are not preparing for college. Since Domestic Science is required two years in the seventh and eighth grades, it was decided to cut the Institute Course in Home Economics from four to two years. This arrangement meets with the approval of the State Supervisor of Home Economics.

A hot lunch is being served during this winter term to supplement the customary cold food brought by the pupils in their lunch boxes. This lunch consists of one hot dish each day and is served on a non-profit basis of five cents. The menu is posted in advance and an order is reserved only by signing for the same. This prevents waste and also enables the management to use products such as milk, eggs, butter, etc., brought by the pupils and paid for in meal tickets. Two girls are detailed each day for serving this lunch. It is being very efficiently taken care of and thus far has proved popular. The number of orders served in one noon has been as high as fifty.

During National Education Week in November, Greely Institute held a visiting day. We conducted no special exercises and made no change in the schedule. In this way the parents and other visitors were able to observe the work

exactly as it is ordinarily carried on. We were pleased that so many made an effort to pay us a visit at that time.

I feel that we have a well-rounded program for a school of this size. By the inclusion of the courses in Sociology, Economics, and Business Training, the latitude for choice of subjects has been made broader for those pupils not planning to continue their schooling beyond the Institute. At the same time the college preparatory students have not been penalized as it is yet possible to study four years of Latin and two years of French.

A three-minute oral topic is required of every pupil in school and a large number give three additional topics for an honor point credit. Current questions confronting the nation today are taken up and discussed in certain of the classes. We do not, of course, expect seventeen-year-old boys and girls to settle the momentous questions of the day, but the men and women who will shape the nation for the next few decades are in school today and the problems that confront individuals in a democratic society will be theirs. Early interest in these affairs, I feel, is essential.

This year we have two singing groups—the regular glee club and a special group of girls. These, together with a growing orchestra, comprise our music program. All of these groups will make several public appearances before the end of this school year.

Many times I feel it would be desirable if parents would make an effort to interview the teachers when, in their opinion, their children are bringing home unsatisfactory grades on their report cards. Deficiencies are generally due to lack of concentrated effort on the part of the pupil, especially during the first few weeks in a new subject. Two hours of quiet home study each day is expected of high school pupils.

Respectfully submitted,

OTTO W. DAVIS,
Principal.

WARRANT FOR TOWN MEETING.

Town of Cumberland, Maine.

To Edward L. Farwell, a Constable in the Town of Cumberland, in the County of Cumberland:

In the name of the State of Maine, you are hereby required to notify and warn inhabitants of said Town of Cumberland, qualified by law to vote in town affairs, to meet at Red Men's Hall, Cumberland Center, in said Town, on Tuesday, the fifth day of March, A. D. 1935, at nine o'clock in the forenoon, to act upon the following articles:

Article 1. To choose a Moderator to preside at said meeting.

Article 2. To choose a Town Clerk for the ensuing year.

Article 3. To hear and act upon the report of Selectmen, Assessors and Overseers of the Poor.

Article 4. To hear and act upon the report of Town Treasurer and Treasurer of Cumberland School Fund.

Article 5. To hear and act upon the report of the Superintending School Committee.

Article 6. To hear and act upon the report of the Treasurer and Trustees of Greely Institute.

Article 7. To hear and act upon the report of the Cemetery Association.

Article 8. To fix salaries of Town Officers.

Article 9. To fix price of labor for all other employees of town, including price of teams and trucks.

Article 10. To choose all other necessary town officers.

Article 11. To raise money for the support of schools for the ensuing year.

Article 12. To see what sum of money the town will vote to raise for the support of Greely Institute.

Article 13. To raise money for schoolhouse repairs.

Article 14. To raise money for textbooks and supplies.

Article 15. To see if the town will vote to instruct the School Committee to insure the elementary school buildings, or establish a fire insurance sinking fund, and to raise and appropriate money for same.

Article 16. To see if the town will vote to instruct the School Committee to fence the West Cumberland School property, and to raise and appropriate money for the same.

Article 17. To see if the town will vote to instruct the School Committee to have wells driven at the West Cumberland and Valley Schools, and to raise and appropriate money for the same.

Article 18. To see if the town will vote to instruct the School Committee to wire for electric lights the West End School at Chebeague Island and the Valley School in Cumberland, and to raise and appropriate money for the same.

Article 19. To see what action the town will take in regard to the money coming from income from Drown Farm.

Article 20. To see if the town will authorize the Selectmen to have revised copies of the Town By-Laws printed.

Article 21. To see if the town will vote to raise and appropriate a certain sum of money for Superintendent of Schools' contingent fund.

Article 22. To raise money for the support of poor.

Article 23. To raise money for mother's aid.

Article 24. To raise money for highways, town ways and bridges.

Article 25. To raise money for State Patrol and State Aid Maintenance Roads.

Article 26. To see what sum of money the town will vote to raise or appropriate for Third Class Road Maintenance, including applying tar.

Article 27. To raise money for payment of snow bills.

Article 28. To see what sum of money the town will vote to raise and appropriate for cutting bushes on the highways.

Article 29. To raise money for payment of town notes and interest.

Article 30. To raise money for support of hydrants.

Article 31. To raise money for support of street lights.

Article 32. To raise money for the support of Cumberland Cemetery Association.

Article 33. To see what action the town will take regarding money received from sale of lots in town (mainland) cemeteries.

Article 34. To receive bills against the town.

Article 35. To see if the town will vote to raise and appropriate the sum of one thousand dollars (\$1,000.00) for materials and/or labor for use in connection with Government Relief Work Projects, should the town obtain any such projects.

Article 36. To see if the town will vote "yes" or "no" on the question of appropriating money necessary to entitle the town to State Aid, as provided in Section 20, of Chapter 28, of the Revised Statutes of 1930.

Article 37. To see if the town will raise and appropriate the sum of eight hundred sixty-four dollars (\$864.00) for the improvement of the section of State Aid Road as outlined in the report of State Highway Commission, in addition to the amount regularly raised for the care of ways and bridges, the above amount being the maximum which the town is allowed to raise under Section 19, Chapter 28, of the Revised Statutes of 1930, or under the provisions of Section 3, Chapter 175, Public Laws of 1933.

Article 38. To see if the town will vote to raise and appropriate a sum of money to continue construction on the Long Woods Road, so called, provided the State appropriates a like amount.

Article 39. To see if the town will vote to raise and appropriate a sum of money to prepare Tuttle Road for tarring, if the State will apply tar.

Article 40. To see what amount of money the town will vote to raise and appropriate for new snow fence.

Article 41. To raise money for contingent expenses.

Article 42. To see if the town will vote to raise and appropriate the sum of three hundred sixty dollars (\$360.00) for the Cumberland Fire Company.

Article 43. To see if the town will vote to raise and appropriate a sum of money to be used in the observance of Memorial Day services, and appoint a committee to have charge of same.

Article 44. To see if the town will vote to accept a certain parcel of land along the Methodist Meeting House and Gray Roads, to be deeded to the town by Mrs. Maude Buntin, due to change in road location.

Article 45. To see if the town will vote to add the following section to the By-Laws: "Art. 2, Sect. 18. No person shall erect, within the borders of the Town of Cumberland, a building to be used for a dwelling without first presenting a plan showing dimensions and proposed location and securing from the Selectmen permission to build."

Article 46. To see if the town will raise or appropriate a sum of money and authorize the Selectmen and Board of Health to employ a physician on Chebeague Island to attend to all matters pertaining to the enforcement of the laws relating to health, and also attend all persons requiring attendance who are charges of the town.

Article 47. To see what sum of money the town will vote to raise and appropriate to be expended in continuing the construction of a piece of road on Chebeague Island.

Article 48. To see if the town will vote to raise or appropriate a sufficient amount of money to provide the Island voters transportation to the March Town Meeting.

Article 49. To see if the town will vote to raise and appropriate the sum of two hundred dollars (\$200.00) for white pine blister rust control. The State guarantees one hundred per cent additional, and local labor will be used.

Article 50. To see if the town will vote to instruct the

Selectmen to continue the arrangement made with the Town of Yarmouth to exchange road repairing and snow removal on Greely Road and Baptist Meeting House Road.

Article 51. To see what action the town will take in regard to collecting back tax deeds and uncollected taxes.

Article 52. To see if the town will vote to raise or appropriate and pay to the Trustees of Prince Memorial Library, the sum of four hundred dollars (\$400.00), to be used in benefiting the service of the Library.

Article 53. To see if the town will vote to authorize the Selectmen to procure a temporary loan or loans in anticipation of taxes for the purpose of paying obligations of the town; such notes to be paid during the current municipal year out of money raised during said current municipal year by taxes.

Article 54. To see if the town will vote to raise or appropriate a sum of money for the repairs of the town wharf on Chebeague Island.

Article 55. To see what sum of money the town will vote to raise for the services of the nurses of the Cumberland County Public Health Association.

Article 56. To see what sum of money the town will vote to raise and appropriate for the support of the Dental Clinic.

Article 57. To hear and act upon any other business that may legally come before this Town Meeting.

THE BUDGET COMMITTEE.

Report of Selectmen, Assessors and Overseers of the Poor.

To the Inhabitants of the Town of Cumberland:

We, the undersigned Selectmen, Assessors and Overseers of the Poor, hereby submit our report for the municipal year ending February 4, 1935.

VALUATION OF THE TOWN FOR YEAR 1934.

Real estate, resident,	\$909,850 00
Real estate, non-resident,	710,170 00
	<hr/>
Total real estate,	\$1,620,020 00
Personal estate, resident,	\$105,760 00
Personal estate, non-resident,	14,180 00
	<hr/>
Total personal estate,	\$119,940 00
	<hr/>
Total valuation,	\$1,739,960 00
Rate of taxation, \$33.00 per thousand.	
Poll tax, \$3.00.	
Number of polls, 427.	

PERSONAL AND REAL ESTATE CLASSIFIED.

REAL ESTATE, MAINLAND.

Land, resident,	\$260,030 00
Buildings, resident,	548,310 00
Land, non-resident,	180,360 00
Buildings, non-resident,	250,450 00
	<hr/>
	\$1,239,150 00

REAL ESTATE, ISLAND.

Land, resident,	\$ 22,110 00	
Buildings, resident,	79,400 00	
Land, non-resident,	82,435 00	
Buildings, non-resident,	196,925 00	
	<hr/>	\$380,870 00 .

Total real estate,	\$1,620,020 00

	<hr/>	\$15,940 53

REPORT OF HIGHWAY COMMISSIONERS.

A. HARRIS COREY.

UNIMPROVED HIGHWAYS.

On town ways, work started about March 24th. Approximately one-half of our money was spent on mud holes and dragging, through the month of April. After this, work consisted of shaping and hauling of gravel. On September 22nd, I had approximately \$228.73 for a balance in this department. This amount was used for work with the E. R. A. Project, with \$83.33 of an overdraft, which would make \$312.06 of this money spent on the E. R. A. Project.

STATE AID ROADS.

A large portion of this money was spent in fixing mud holes and dragging in the Spring.

The Middle Road was very bad last Spring and had to have a lot of dragging and quite a number of loads of gravel put in the bad places.

Some time in June, the State crew came in and applied tar on the Middle Road from the Charles R. Lewis place to the Yarmouth line. This was of great benefit to the town. We had done some patching on this stretch previous to this, which was quite expensive.

On September 22nd, we had approximately a balance of \$182.42 on State Aid Maintenance. This is merely to show the reason for the overdraft in this department. Besides this balance of \$183.42, we spent \$363.38, which went to pay for trucks, gravel and other necessary labor and material on the E. R. A. Project on the State Aid Roads.

THIRD CLASS MAINTENANCE.

This work consisted of hauling gravel, scraping, dragging, and clearing ditches on W. L. Merrill's hill. We laid a rock drain from the top of the hill to the foot, where it runs off. I think this will save a great deal of washing on the side of the road every Spring and Fall.

These three pieces of Third Class Road were in very good shape all Summer.

THIRD CLASS CONSTRUCTION.

Work was started on the Greely Road the 2nd of August, a short distance above the Arnold Field place. The base was hauled from Osgood's pit and surface from Mrs. Strout's.

This piece of road was always very bad in the Spring of the year, so we put in more base than common, using anywhere from 15 to 22 inches.

There were two main culverts and one driveway culvert.

We finished this work about the 15th of September, at a total cost of \$1,815.03 for 1,850 feet of gravel base and surfaced road.

BUSHES.

Starting on Center Road at Station, the bushes and weeds were all mowed to the North Yarmouth line. The Foreside, Middle, Tuttle and Blanchard Roads were all mowed, too. We cut and burned the bushes on the Range Road, starting at brick schoolhouse to C. E. Merrill's place, also from Hoey's to C. E. Merrill's and Maine Central Railroad to Frank Little's.

BRIDGES AND CULVERTS.

As soon as the frost was out of the ground, we put up cable guard fence in the gully by the John Vose place, and one on both sides of Rideout's bridge. These two jobs cost approximately \$200.00. This left me a balance of about \$50.00.

After this was done, a number of bridges began to show that they were in very bad shape. I replanked the John Swett, Bill Merrill, Randall Sawyer and Frank Doughty bridges. I also had to put some new stringers in these bridges.

This accounts for the overdraft in this department. The Station bridge needs repairs another year, also some of those mentioned above will need more repairs.

E. R. A. PROJECT.

Starting September 27th, with five men and two trucks, we surfaced the Center Road from Greely Road to the M. C. R. R., putting on anywhere from two to four inches of gravel and clay mixed.

We then made a fill on the short cut from the Center Road to the Greely Road. We used about 125 yards of base on this short stretch, and it was from 18 to 30 inches in depth. This helped a great deal in breaking snow this Winter.

We also hauled some 125 yards of gravel on the Rabbit Road, leading to Ripley Burnell's.

After this was finished, we started at Jordan's store and cut the shoulders off from the road and cleaned out all culverts and ditches to the M. C. R. R. The ditch leading

across in front of the John Swett place was badly filled up, so we cleaned this ditch out to the Edmund Merrill Road. We also had some men cutting and burning bushes.

We then started at Walter Nelson's and plowed the ditches and cleaned them out in good shape to the top of Ferris hill on both sides of the road. The bushes were cut and burned from Nelson's to the Falmouth line. We had to put in a culvert in front of the Peter Hanson place. This culvert was in bad shape, the covering stones being broken and the side walls had fallen into the culvert itself. We also gravelled this stretch of road from Walter Nelson's to the top of Ferris hill.

E. R. A. PROJECT.

The following account shows the Federal funds furnished and men employed:

Paid John Farmer,	\$104 99
Samuel H. Ross,	83 99
Robert A. Ross,	78 74
Stephen E. Greer,	83 99
Harrison M. Rowe,	6 12
Joshua Sewall,	111 00
Arnold A. Field,	315 00
Merton Tame,	52 49
Ormond Irish,	13 12
George Pickens,	47 25
Averill Vaughan,	47 25
Dudley Merrill,	21 00
Casper Anderson,	21 00
C. E. Merrill,	18 37
Glen Burnell,	13 12
Lester Scott,	21 00
Chester Stevens,	21 00
Carlan Burnell,	10 15
Thomas I. Reed,	10 50
Christian Peterson,	10 50
Vaughan Sprague,	10 50
	<hr/>
	\$1,101 08

APPLE TREE PROJECT.

This was another E. R. A. Project, which called for the removal of apple trees in orchards designated by the Federal man in charge.

We used a tractor for this work, and were paid at the rate of 25c per tree. The Federal fund paid the men for cutting up the trees in four-foot lengths and piling up the wood and brush, for which the men received the following:

Paid A. Blackman,	\$15 75
Glen Burnell,	15 75
Frank Darling,	9 45
Frank Downing,	10 50
C. E. Merrill,	31 50
C. W. Olson,	10 50
Ernest Palmer,	9 45
Thomas I. Reed,	15 75
R. A. Ross,	2 62
S. H. Ross,	15 75
M. A. Watson,	9 45
	<hr/>
	\$146 47

RODERIC P. WILSON.

TOWN HIGHWAYS.

Due to the late Spring and the snowstorm of March 11th, work was not started until March 20th.

At that time we started hauling gravel on the places that were liable to break through when the frost came out. In this way we could haul more loads than we could after the roads began to soften up, and we saved a great many places from breaking through.

On March 28th, the roads began to break up, and until the first part of May, work consisted mostly of patching the worst holes.

During the summer the roads were dragged and gravel applied until the roads dried up to such an extent that they could not be dragged to any advantage.

A total of 990 yards of gravel was put on the roads during the year.

STATE AID CONSTRUCTION.

Work was started on the State Aid construction on October 1st, beginning near the residence of Linwood Morrill and going toward the Gray Road at Gray Road Inn.

A total of 950 feet was completed, including the installation of one 48-inch culvert, and a portion of ledge being removed. This portion is now complete, with the exception of wire cable to be strung, the posts having been already installed.

STATE AID MAINTENANCE.

This short piece of road, located between the Falmouth line and the State Aid construction of this year, was resurfaced and dragged.

THIRD CLASS MAINTENANCE.

During the week of May 21st, gravel was hauled and tar applied on the section of the Third Class Road already tarred one-half mile. The remainder of the road was not in very good condition and needed to be resurfaced. Soon after the tar was applied, the State began hauling gravel over the entire length of our Third Class Road for the reconstruction of the Gray Road. This heavy traffic soon began to break up our tar and put the remainder in terrible condition.

Due to the efforts of the Selectmen, the State agreed to tar the road, provided the town would put the road in condition to be tarred. We applied an average of three inches of gravel to this road, using a total of 754 yards.

A total of 100 loads of stone was raked from this surface and used on the Range Road to fill in bad ledges.

We now have the entire length of the Third Class Road tarred (one and one-half miles), and money should be raised to make a second application this coming year.

In addition to the tar that the State applied on this road, they also tarred the Blanchard Road nearly two miles, and also two miles of tar was put on the Middle Road, at a total cost to the State of \$4,810.35.

BRIDGES AND CULVERTS.

Work this year consisted mostly of erecting new guard rails and repairing small bridges and culverts.

The bridge located on the Valley Road should have some new stringers and new planking this coming year.

BUSHES.

The greater part of the bush money this year was spent on the Pig Hill Road in an effort to clean up the larger bushes so that we would be enabled to mow them with a scythe.

MARTIN B. HAMILTON.

TOWN HIGHWAYS.

The regular work of dragging and repairing the worst mud holes was started with the opening of Spring. Later, several places were repaired by the road machine.

In August, a ditching job was started near the summer residence of Miss Richardson to keep the water from crossing the road and washing away her lawn. I also feel that it will protect, to a certain extent, the washing out of the Dr. Hale hill.

The main object of this work, however, was to furnish work relief, and part of the expense was paid from the poor account.

Later, an ERA Project was approved, which gave us about \$400.00 to spend on general improvements of our Island roads. This was worked out by five Island men, over a period of eight weeks, by cutting bushes, ditching and surfacing with shore gravel, several sections of road that are usually very muddy in the Spring. The town furnished all material and trucking on this project.

Later, bushes were cut back to the fence lines on a section of the road near the West End schoolhouse. This was done to furnish work relief and was paid for from the poor account. This is a great benefit to the roads, besides giving a lot of encouragement to the unemployed.

It was not deemed practical to continue this work after the fall of heavy snows.

ISLAND ROAD, SPECIAL.

A section of the South Road, near Central Landing, was selected for the expenditure of the special appropriation this year.

The road was straightened a little and a good ditch put in on the upper side. It was also necessary to install new culverts, as this section has always overflowed in heavy Spring rains.

The base was extended considerably beyond the surfacing with the intention of having the muddiest section passable this Spring. This surfacing should be finished from next year's appropriation and the balance of the appropriation used in the continued construction of the same section.

TOWN HIGHWAYS.

Appropriation by town,	\$3,200 00
Island Road, special,	1,000 00

GEORGE M. GRAFFAM,
Certified Public Accountant.

REPORT OF THE CLERK OF CUMBERLAND CEMETERY ASSOCIATION.

To the Citizens of the Town of Cumberland:

The Cumberland Cemetery Association was organized in accordance with the provisions of the Revised Statutes of Maine for the purpose of protecting and improving the public cemeteries of the town.

The Trustees have visited the cemeteries and made some plans in regard to what needs to be done, and how best to distribute the money to be used.

The only available money this year was the balance from the Cemetery Commission and interest from funds in care of the town. No money was raised by the town at the last town meeting.

We found that some lots which should have perpetual care had not had it.

Some work has been done in each cemetery; bushes have been cut, dead trees removed, other trees trimmed and fences repaired. There is much more work to be done to put the cemeteries in a commendable appearance.

In each cemetery there are many headstones which need to be reset or straightened; in most cases these are in lots where there are no relatives of the deceased to attend to the care of the lots.

Some of the fences need to be painted this year, and regrading will be done as much as possible.

We need the coöperation of the owners of lots in order that efficient work may be done.

Respectfully submitted,

GERTRUDE S. BRAGG,
Clerk of the Corporation.

REPORT OF THE SUPERINTENDENT OF SCHOOLS.

February 1, 1935.

To the School Committee and the Citizens of the Town of Cumberland:

I herewith submit the annual report of the public schools in Cumberland for the year ending February, 1935.

Although the school report contains the regular statistical information covering costs, enrollments and attendance records, it is curtailed this year to allow space for one of the most important recommendations of the Maine Public School Finance Commission.

The following is taken from Legislative Document No. 56, which was presented to the Maine Legislature on January 17, 1935. This Document may be amended—and it may or may not become a law either in its present form or amended form. It is given here in order that the public may have for ready reference the type of Equalization Program which the Maine Public School Finance Commission recommends.

There are other sections in Document No. 56, aside from Section 210 which is quoted here.

"SEC. 210. EQUALIZATION AID. I. The amount of equalization aid which any city, town, or plantation is entitled to receive in any year shall be computed as follows: To the amount equivalent to the yield of 7.3 mills on each dollar of assessed value of taxable property within such city, town, or plantation, equalized as hereinafter defined, shall be added the total amount allotted to such city, town, or plantation in the school year 1933-1934 from all state sources, but exclusive of federal aid for vocational education and exclusive of aid for educational facilities for adults. The sum of these two amounts shall be subtracted from the computed cost of maintaining the foundation program as hereinafter defined. One-quarter of the difference so computed shall be credited with any increase in aid to be received under section 205 over that received under section 205 in the school year 1933-1934, and the remainder, if any, of said one-quarter of said difference shall be paid such city, town, or plantation from the equalization fund.

Provided, however, that the equalization aid granted any city, town, or plantation shall not be less than the excess of 60% of the cost of the foundation program as hereinafter defined over the sum of a yield of a tax of 11 mills on each dollar of equalized assessed value of taxable property within the town and 60% of the aid received from industrial education and physical

education, aid received under section 206 not in excess of \$46 per pupil, and all other state aids, not obtained from federal funds.

The commissioner of education shall ascertain the amount required to supplement the revenue of such city, town, or plantation in accordance with this provision, and shall apportion from the equalization fund and distribute the same to such city, town, or plantation in the same manner and at the same time as other apportionments for cities, towns, and plantations provided by law.

All funds thus received by each city, town, or plantation and the school committee thereof, shall be used to pay current operating expenses of elementary and secondary schools.

No city, town, or plantation shall continue to participate in the benefits of additional state aid, as herein provided, after July 1, 1938, which has not expended during the preceding year, exclusive of expenditures for debt service and permanent improvements other than maintenance, the larger of the following two amounts: (a) an equivalent of 60% of the computed cost of the foundation program, as hereinafter defined, or (b) an amount equivalent to the sum of all aid received from the state and the equivalent of a yield of a tax of 7.3 mills on the equalized assessed value of property in the city, town, or plantation. In computing expenditures for this purpose, expenditures of funds derived from gifts, endowments, or local permanent funds, shall not be considered.

Provided, that the amount of additional aid granted by this act for pupils attending academies and for whom state aid is paid either under section 206 or under other state aid provisions shall not exceed an amount necessary to supplement up to \$76 the aid granted under section 206 or under other state aid provisions other than aids from federal funds and the amount of aid granted per Maine resident pupil directly to the academy. When the aid granted under section 206 or granted from other than federal funds under other state aid provisions, added to the amount of aid per Maine resident pupil granted directly to the academy, exceeds \$76, no additional aid shall be paid for the pupils concerned, and the excess of present aids over \$76 shall be deducted from any increase in aid apportioned to the city, town, or plantation by this section.

II. DEFINITION OF FOUNDATION PROGRAM. For the purposes of this act the cost of the foundation program to be used in computing state aid shall be determined as follows, on the basis of the statistics of the preceding school year:

1. The foundation program cost of a one-teacher elementary school which is declared to be a necessary part of the state school system shall be counted as \$1,305.

2. The foundation program cost of an elementary school with two or more teachers and an average daily attendance of 42 pupils or less shall be counted as \$62 for each such pupil in average daily attendance. Provided, however, that any elementary school with two or more teachers which is declared a necessary part of the educational system shall be counted as not less than \$1,305.

3. The foundation program cost of any elementary school with two or more teachers and an average daily attendance of

43 to 290 pupils, inclusive, shall be counted as \$2,610 for the first 42 pupils in average daily attendance and \$42 for each additional pupil in average daily attendance.

4. The foundation program cost of any elementary school with an average daily attendance of 291 pupils or more shall be counted as \$45 for each pupil in average daily attendance.

5. The foundation program cost of any four-year secondary school which has an average daily attendance of 36 pupils or less shall be counted as \$1,672 for the first 6 pupils in average daily attendance, and \$112 for each additional pupil up to 36 pupils.

6. The foundation program cost of any four-year secondary school which has an average daily attendance of from 37 to 725 pupils, inclusive, shall be counted as \$5,032 for the first 36 pupils and \$72.70 for each additional pupil.

7. The foundation program cost of any four-year secondary school which has an average daily attendance of 726 pupils or more shall be counted as \$76 for each pupil in average daily attendance.

8. The foundation program costs for cities, towns, or plantations supporting a partial secondary school program shall be calculated as if they had four-year secondary schools, except as follows: any city, town, or plantation offering work in grades 9, 10, and 11 only shall have its secondary school computed foundation program cost reduced by 20%. Any city, town, or plantation offering work in grades 9 and 10 only shall have its secondary school computed foundation program cost reduced by 35%. Any city, town, or plantation offering work in grade 9 only shall have its secondary school computed foundation program cost reduced by 45%.

9. For each non-resident elementary pupil \$45, and for each non-resident secondary school pupil \$76 shall be subtracted from the cost of the foundation program for the school attended.

10. For each elementary pupil sent to school in another city, town, or plantation for whom tuition is paid, \$45 shall be added, and for each secondary school pupil sent to school in another city, town, or plantation, or in an academy, and for whom tuition is paid, \$76 shall be added to the computed cost of the foundation program of the city, town, or plantation paying the tuition.

11. The cost of a program of transportation for elementary and/or secondary pupils, or subsistence in lieu of transportation, to be determined by the commissioner of education according to rules and regulations to be established by the said commissioner of education, with the approval of the governor and council, shall be counted as a part of the computed cost of the foundation program of the city, town, or plantation supplying transportation, or subsistence in lieu of transportation.

12. Where there are two or more schools of elementary or secondary grade in a city, town, or plantation, the attendance in such schools shall be treated as if it were a single elementary school or a single secondary school, as the case may be, provided, however, that where the operation of an isolated school

is considered essential by the commissioner of education, the attendance in such a school may be computed as a separate unit.

13. The commissioner of education is hereby empowered and it shall be his duty to reapportion the amount due any city, town, or plantation from the equalization fund as hereinbefore authorized when, as, and if it shall appear to him that the attendance in or condition of the schools therein have changed to such an extent as to create an emergency, and to render such reapportionment as is necessary to carry out the intent of this act. Such reapportionments must receive the approval of the governor and council.

14. In case the number of teachers supplied in any town is less than the number normally supplied, on the average, to schools of the same size in the state, and in the judgment of the commissioner of education such shortage in teachers is not offset by higher qualifications of teachers or by other services supplied in the city, town, or plantation, the commissioner of education may, with the approval of the governor and council, use \$1,305 times the number of elementary teachers and \$1,672 times the number of secondary school teachers as that part of the cost of the foundation program arising from average daily attendance, or any intermediate figure between such figure and the figure obtained by the computations outlined above.

III. DEFINITION OF EQUALIZED VALUE. The equalized assessed value of the taxable property in any city, town, or plantation to be used for the purpose of this act shall be the latest available true value of such property as fixed by the state tax assessor, multiplied by the equalization ratio. The equalization ratio shall be defined as the ratio which the total assessed value of all property taxable by municipalities within the state for the same year bears to the true value of such property in the state as determined by the state tax assessor. The term 'true value' shall be defined as the value of all taxable property obtained by uniformly applying the same measure of consideration to the same elements of value, although the weight given such elements may vary according to local conditions. In computing the equalization ratio the figure to be used as the total assessed value of all property taxable by municipalities within the state shall not be less than the total assessed value of such property as shown in the report of the state tax assessor for December, 1933.

On or before the first day of August, 1935, and before the first day of January for each year thereafter, the state tax assessor shall certify to the commissioner of education the assessed value of the taxable property within each city, town, and plantation, the true value of such property, the equalized assessed value of such property, and the equalization ratio for the state.

IV. When pupils are sent from one city, town, or plantation to another and any amounts of tuition for such pupils are two months or more overdue, the commissioner of education shall pay such claims as he allows to the receiving city, town, or plantation, and charge the same to the sending city, town, or plantation at the next regular annual apportionment, with interest at 6% per annum."

The school financial records are closed twice a year. The accounts are balanced and closed in February for the Annual Town Meeting and also in June for the State Reports. The enrollment varies from year to year in the Town of Cumberland, and it is much more accurate to figure school costs for the school year beginning July 1st and ending June 30th.

In the Town of Cumberland the children are being housed, educated and, in many cases, transported at the following per pupil costs:

	<i>Yearly Cost</i>	<i>Daily Cost</i>	<i>Hourly Cost</i>
Elementary,	\$52.16	\$0.291	\$0.041

How do these costs compare with the costs of other services for which you have to pay?

The transportation cost per pupil transported by town bus per day is \$0.071.

The transportation cost per pupil transported by town bus per year is \$12.66.

The school buildings in this town have been kept in repair at a cost per pupil of \$2.59. How does this compare with the repair bill on your home per person housed therein?

The number of pupils per elementary teacher is 22.

The number of pupils per secondary teacher is 20.

School enrollments for the past six years (Figures are Fall Term enrollments only):

Year	Elementary (SP-6)	Chebeague		Greely Institute (7-8)	Institute (9-12)	Total
		High (7-11)				
1929	179	13			54	246
1930	148	19		22	48	237
1931	142	23		30	63	258
1932	151	29		42	54	276
1933	167	26		48	54	295
1934	152	42		42	73	309

The graduation exercises for Greely Institute were held on June 22, 1934. The official list of those who received diplomas is as follows:

Belna Lizzie Burnell	Dorothy Mason Jones
Carlan Lee Burnell	Preson Earle Morse
Hazel Gertrude Campbell	Edna Marie Nelson
Lester George Cann	Ralph Mason Stearns
Ariel Ann Eller	Ella Florence Wilson

The many patrons and friends of the schools have been most helpful during the past year. They have assisted generously in making the educational program more effective. In assuming our responsibilities as teachers and school officials, the public sympathetically feels that in no sense are we endeavoring to usurp any prerogatives belonging to the public. It is our belief also that the public appreciates the fact that it is our aim not to annoy the public with those administrative problems definitely delegated to us. The fine

spirit of coöperation existing among the citizens and the school officials is a testimonial to the existence of that mutual confidence which is so necessary to the success of a public school system.

On behalf of the faculty members, the school officials and all school employees, I wish to express to the citizens of the town our deep appréciation.

Respectfully submitted,

JOHN T. GYGER,
Superintendent of Schools.

REPORT OF THE PRINCIPAL OF GREELY INSTITUTE.

January 28, 1935.

*To the Superintendent of Schools and Trustees of Greely
Institute:*

Since my previous report, we have graduated a class of ten. No one of these is attending an institution of higher education, though three graduates completed the college course and received certificate grades. However, a check-up of our recent graduates shows that ten are continuing their formal education.

We have continued to offer the subjects necessary for college entrance requirements and to maintain a sufficiently high standard of scholarship in those subjects that pupils are capable of doing satisfactory college work. We are mindful of the fact that only a small percentage of our pupils can continue their education beyond high school and sufficient other subjects are offered to appeal to this larger group. The manual training course given for the first time this year to institute pupils is being very efficiently taken care of and fills a long-felt gap in the curriculum.

Our most serious problem at present is the congested condition under which we work. This year we have a total enrollment of 113—70 in the institute proper and 43 in the seventh and eighth grades. Every seat which could be used for a home room is occupied. This condition occasions considerable moving about from room to room, resulting in more or less confusion, which makes difficult the smooth administration of the school. Indications are that for three years at least the enrollment for the school will not be less than at present.

Both teachers and pupils appreciate the interest of the alumni and parents in the various activities of the school, and I wish to thank the Alumni Association for their financial assistance in furnishing a first and second prize for several years past for the annual speaking contest. We wish

also to thank the Class of 1934 for their gift of \$8.41 to the Athletic Association.

It is most essential that parents and teachers coöperate to solve the difficulties and problems of the pupils. Whenever such cases arise it is wise for the parties concerned to confer. Everyone is aware of the fact that one's impressions are colored by his point of view. Is the point of view of a pupil disinclined toward serious study a safe basis for judging the effectiveness or fairness of a teacher? Your teachers merit that high type of coöperation shown in discounting those poorly founded criticisms which serve only to decrease their effectiveness.

Respectfully submitted,

OTTO W. DAVIS.
